| 9:30 - 10:00 a.m.     | Environmental-Economic Accounting of the Peruvian Amazon. Eduardo Vera. USP.                                                                                                                                       | The Peruvian blue economy: an interregional approach. Andrea Bento Carvalho. USP & FURG                                                                                                              | Enhancing Cardiovascular Healthcare Access in Romania's Care Deserts. Alexandra Cioclu. University of Bucharest, Faculty of Geography.                                                                                              | Peripheral Areas and regional development in Peru: a structural analysis approach. Alex Mello. USP.                                                                                                                                 |
| 10:00 - 10:30 a.m.    | Miradas y reflexiones para la renaturalización del territorio y paisajes de Iquitos. Moisés Porras Ramírez. Pontificia Universidad Católica del Perú.                                                              | Structural Interdependence Among Peruvian Departments. Wallace Farias. USP & UFPB                                                                                                                    | Using network analyst to identify gaps in metropolitan healthcare services accessibility. Cazacu Cristian. Univeristy of Bucharest.                                                                                                 | Socio-environmental risk in Peru: Identification, characterization and categorization of the 1874 districts in 2019, using machine learning and spatial econometrics. Christian Trujillo. Pontificia Universidad Católica del Perú. |
| 10:30 - 11:00 a.m.    | COFFEE BREAK                                                                                                                                                                                                       |                                                                                                                                                                                                      |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                     |
| 11:00 - 11:30 a.m.    | Spatial Justice and Equitable Development in the Prespa Lake Borderland: A Transboundary Analysis. Anila Bejko. Co-PLAN, Institute for Habitat Development.                                                        | Pathways for Sustainable Development in Peru: Integrating Economic, Social, and Territorial Dimensions. Aidan Rossi de Araujo. USP.                                                                  | Homelessness and Access to Health Care: A Case Study in Bucharest, Romania. Liliana Dumitrache. Univeristy of Bucharest.                                                                                                            | Drivers of the Recent Performance of Peru's Economy: A Dynamic SDA (2007-2022). Fernando Perobelli. Federal University of Juiz de Fora.                                                                                             |
| 11:30 a.m. - 12:00 m. | Deforestation in the Romanian Carpathians. Current trend and future probability. Monica Dumitrascu. Institute of Geography, Romanian Academy.                                                                      | Spatial inequalities and suburbanization patterns in romania: a regional analysis of service accessibility. Ines Grigorescu. Institute of Geography, Romanian Academy.                               | Treeline ecotones and climate warming: a multiyear study on sensitivity and response in the Nepal Himalaya. Udo Schickhoff. CEN Center for Earth System Research and Sustainability, Institute of Geography, University of Hamburg. | Left-behind Regions in Central Eastern European countries: Classification and Electoral Implications. Michał Konopski. Institute of Geography and Spatial Organization Polish Academy of Sciences.                                  |
| 12:00 - 12:30 m.      | A GIS-Based Preliminary Assessment of the Landscape in Maramureş Mountains Nature Park: Insights into Landscape Structure, Function, and Conservation Challenges. Mihaela Nastase. Romania Portected Areas Agency. | Spatial modelling of cultural tourism development potential in the rural landscapes of the Buzău Carpathians and Sub-Carpathians, Romania. Bianca Mitrica. Institute of Geography, Romanian Academy. | Commuting to high school: Uneven spatial accessibility and its effects on health, socio-economic characteristics and educational pathways of the population. Petre Angelo-Andi. University of Bucharest, Faculty of Geography.      | Manors as rural development drivers and local innovation hubs. Garri Raagmaa. Tartu University.                                                                                                                                     |
| 12:30 m. - 2:00 p.m.  | LUNCH BREAK @ Tinkuy terrace - 2nd floor                                                                                                                                                                           |                                                                                                                                                                                                      |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                     |

| Hour                 | Place                        | Poster                                                                                                                                                    |
|----------------------|------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| 9:30 a.m - 3:30 p.m. | McGregor Building, 2nd Floor | Perspectives and reflections on the renaturalization of the territory and landscapes of Iquitos. Moisés Porras. Pontificia Universidad Católica del Perú. |

Legend:

- Land Use/Cover Change, Deforestation and Biodiversity Loss
- Socio-economic Disparities, Local and Regional Development
- Environmental Changes; Vulnerabilities, Impacts and Inequalities
- Cross-Border Climate Action: Renewable Energy Cooperation in Peripheral Areas and North-South Partnerships

# Landscapes in Flux: Managing Land, Biodiversity, and Disaster Risks in a Changing World

October 15

Location: McGregor building

Schedule:

| Time             | Classroom                                                                                                                                                                                                                                    |                                                                                                                                                                           |                                                                                                                                                                                                                                      |                                                                                                                                                                                |
